

February 2020

Dear Prospective New Sponsor:

The Society of Women Engineers (SWE) is dedicated to empowering women and girls to achieve their desires and aspirations of pursuing an education and a career in a STEM (Science, Technology, Engineering, or Mathematics) field. To accomplish this, the Greater Syracuse Area Section of SWE established an annual scholarship program that has awarded over \$140,000 worth of scholarships to more than 130 deserving young women in the Syracuse area!

Local companies have partnered with us to help young women begin their pathway into a STEM field career by sponsoring our annual scholarship program. As a leading firm in the STEM field in the Syracuse area, we would like to invite you to become a sponsor of our Scholarship Program. The names of our sponsors are prominently displayed at our annual Scholarship Awards Reception and representatives of sponsoring companies are invited to attend the reception. As a result of the contacts made at past Scholarship Awards Receptions, several scholarship award recipients have sought out and obtained internships and full-time positions with sponsoring companies.

This year we are proud to be celebrating our 30th year of the Scholarship Program and we have expanded our scholarships to include women in high school pursuing a 2-year STEM degree and women who have been out of school for 5 + years enrolled in a full time STEM program. With these changes we hope to broaden our outreach and enable more women to pursue their career in STEM. After the amazing support we had last year we would like to keep the ball rolling and support as many women as possible. Last year we were able to give away six scholarships with a value of \$3,000, thanks to local businesses.

We hope that you will consider joining us and becoming a sponsor of the Greater Syracuse Area SWE Scholarship Program this year. Our reception is scheduled for Monday, May 18th. More details will be provided closer to the reception date. If you would like additional information on our Scholarship Program or the Scholarship Awards Reception, please contact us at SyracuseSWE.Scholarship@gmail.com.

We thank you in advance for your consideration of support.

Sincerely,

Chelsea Armstrong
FY20 Scholarship Coordinator
